

Stars Streamers

Materials:

Star Pattern

Hole Punch

Red, White, and Blue Cardstock

Red, White, and Blue Craft Lace or Yarn

You can use these star patterns to make patriotic streamers, star necklaces, or a dangling mobile. Print or trace the pattern onto heavy red, white, and blue cardstock. Use a hole punch and punch out holes at the circles. Use red, white, and blue craft lace or yarn and have the children string the lace through the stars to make a necklace or streamer. An additional option is to print the stars on white cardstock and have the children draw, color, and decorate the stars.
